EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Barrie D. Greene on 14 March 2007.

The specification has been amended as follows:

At page 1, line 1, the title of the invention "SECRETED AND TRANSMEMBRANE POLYPEPTIDES AND NUCLEIC ACIDS ENCODING THE SAME" has been deleted and replaced with the title "PRO337 POLYPEPTIDES".

EXAMINER'S COMMENT

The claimed polypeptide of SEQ ID NO:523 referred to as PRO337 is disclosed as a newly identified member of the IgLON subfamily of the immunoglobulin superfamily (e.g., see pp. 105, 179 and 50-52 of the specification). The IgLON family of proteins are well known, having defined structural and functional domains and possessing neurite growth and differentiation potentiating properties. See e.g., Struyk et al (The Journal of Neuroscience, 15(3):2141-2156, March 1995, IDS reference 12 filed 2/21/02); Wilson et al Journal of Cell Science, 109:3129-3138, 1996, IDS reference 15 filed 2/21/02); Funatsu et al (The Journal of Biological Chemistry, 274(12):8224-8230, March 19, 1999); Marg et al (The Journal of Cell Biology, 145(4):865-876, May 17, 1999); Lodge et al (Molecular Brain Research, 82:84-94, 2000); McNamee et al (Journal of Neurochemistry, 80:941-948, 2002); Miyata et al (Neuroscience, 117:645-658, 2003).

Art Unit: 1643

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David J. Blanchard whose telephone number is (571) 272-0827. The examiner can normally be reached at Monday through Friday from 8:00 AM to 6:00 PM, with alternate Fridays off. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Larry Helms, can be reached at (571) 272-0832.

The official fax number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
